

HELP STOP BLOODSPORTS

Every year, thousands of animals are killed in the name of sport in this country. You can help stop this appalling slaughter. Hunt saboteurs take action where it counts - in the killing field - using non-violent direct action tactics to save the lives of thousands of hunted animals every year. From using hunting horns and voice calls to distract the hounds at hunts, to standing in front of the shooting butts on the grouse moors, to wading through rivers at mink hunts. Wherever animals are being hunted, hunt sabs will be there, protecting the our wildlife from the sportsmen who get their kicks from killing.
